

Meetings, Conferences, Symposia and Workshops

2005

May 4-6, 2005	13 th National Conference on Building Commissioning		To be held in New York, NY • www.nbc.com
May 12-13, 2005	Canadian Building Science and Technology Conference		To be held in Ottawa, Canada • www.nbec.net/conference.htm
May 16-21, 2005	2005 Affordable Comfort		To be held in Indianapolis, IN • www.affordablecomfort.org
May 19-21, 2005	AIA 2005 National Convention and Design Exposition		To be held at the Mandalay Bay in Las Vegas, NV • www.aiaconvention.com/live/61/events/61LA505A
May 30-June 02, 2005	IEA Heat Pump Conference		To be held at Caesars Palace in Las Vegas, NV • www.ornl.gov/hp2005
June 20-23, 2005	Ecobuild America		To be held in Orlando, FL • http://www.ecobuildamerica.com
June 25-29, 2005	ASHRAE Annual Meeting		To be held in Denver, CO • www.ashrae.org
June 27-30, 2005	Nat'l Workshop on State Building Energy Codes		To be held in Austin, TX • http://www.energycodes.gov/news/2005_workshop/
July 06-09, 2005	HVAC Asia, Singapore		Contact • hqlink@singnet.com.sg
July 9-14, 2005	2005 Solar (ASES)		To be held in Portland, OR • www.ases.org
August 08-12, 2005	ASES/ISES Solar World Congress 2005		To be held in Orlando, Florida • http://www.swc2005.org/
August 11-12, 2005	The Use of RADIANCE in Design Practice, Research and Education		To be held at McGill University, School of Architecture, Montreal, Canada • http://irc.nrc-cnrc.gc.ca/ie/light/RadianceWorkshop2005
August 15-18, 2005	IBPSA BS 2005		To be held at École Polytechnique de Montréal in Montreal, Canada • http://www.ibpsa.org/
September 14-16, 2005	World Energy Engineering Conference		To be held in Austin, TX • www.energycongress.com
October 6-9, 2005	Solar Forum 2005 - Photovoltaic Experience Conference		To be held in Washington, DC • www.solarpowerconference.com
October 09-12, 2005	8th REHVA World Congress -- Climate 2005		To be held in Lausanne and Luzern, Switzerland • http://www.clima2005.ch/

Meetings, Conferences, Symposia and Workshops

2005 (continued)

- October 26-28, 2005 Energy & Environmental Building Association (EEBA) 2005 To be held in Colorado Springs, CO • www.eeba.org
- November 21-23, 2005 Int'l Conference On Energy R & D To be held in Safat, Kuwait • Contact Organizers At 965 4811188, Ext. 5804 Or Fax 965-484-7131.
- November 9-11, 2005 2005 USGBC Greenbuild To be held in Atlanta, GA • www.usbc.org

2006

- January 21-25, 2006 ASHRAE Annual Meeting To be held in Chicago, IL • www.ashrae.org
- April 23-27, 2006 Light+Building To be held in Frankfurt, Germany • <http://www.light-building.messefrankfurt.com>
- May 21-24, 2006 5th International Conference On Cold Climate HVAC To be held in Moscow • Contact brodatch@abok.ru.
- June 4-8, 2006 Healthy Buildings 2006 To be held in Lisbon, Portugal • www.hb2006.org.
- June 24-28, 2006 ASHRAE Annual Meeting To be held Quebec City, Canada • www.ashrae.org
- July 09-12, 2006 SOLAR 2006 <http://www.ases.org/>

2007

- January 27-31, 2006 ASHRAE Winter Meeting To be held in Dallas, TX, • www.ashrae.org
- June 23-27, 2006 ASHRAE Annual Meeting To be held in Long Beach, CA, • www.ashrae.org

Directory of Software and Services for EnergyPlus

Program Name	Description	Cost
EnergyPlus 1.2.2	Downloadable from www.energyplus.gov/	Free!
	Support mailto:EnergyPlus-Support@gard.com	
	Support Group groups.yahoo.com/group/EnergyPlus_Support	

Users Tools for EnergyPlus

Vendor

Joe Huang and Associates
31 Sarah Lane
Moraga CA 94556-2563
Ph: (925) 247-9180

Description

DrawBDL+3.1 (www.drawbdl.com)
allows users to visually review the building geometry in both EnergyPlus and DOE-2 input files. DrawBDL can export the DOE-2 surface data in EnergyPlus IDF format; useful for those users who wish to convert their DOE-2 input files into EnergyPlus input files.

Ecotect

Square One Research
Centre for Research in the Built Environment, Bute Building
King Edward VII Avenue
CARDIFF, CF10 3NB - Wales
United Kingdom

Description

Ecotect couples an intuitive 3-D design interface with a comprehensive set of performance analysis functions (visualization, solar and daylighting analysis, shadows and shading, lighting design, thermal performance, UK building regulations, ventilation, and acoustic analysis) with interactive information displays. It also can export an EnergyPlus IDF file.
For more details, click here for an article from the Building Energy Simulation User News.

NaturalWorks

Paul F. Linden (San Diego, CA)
pf@natural-works.com

Guilherme Carrilho da Graça (Lisbon, Portugal)
gcg@natural-works.com

EP_GEO and EP_SYS

NaturalWorks has developed two spreadsheet-based interfaces that can complement the simple interface tools that are included in the standard EnergyPlus installation.
EP_GEO (building geometry)
A spreadsheet that uses a set of simple macros to create rectangular building geometry, windows, shading, infiltration, internal gains and temperature control (using 'purchased air'). Rectangular zones can be automatically created in an idf file by simply entering zone height, width and length. An offset in zone origin can be used to insert multiple zones in an existing file.
EP_SYS (systems)
This spreadsheet allows for creation of Purchased Air, Fan Coil And Variable air Volume systems in a large number of zones. The list of zones in an existing IDF file can be automatically imported and individual zones selected for insertion of one of the three basic types of systems available in the tool.

Users Tools for EnergyPlus (Continued)

Taylor Systems Engineering, Inc.
9801 Fair Oaks Blvd., Suite 100
Fair Oaks, CA. 95628
Ph: (916) 961-3400
Fx: (916) 961-3410

TSe+ is the first of a suite of tools to manage data for EnergyPlus. These (alpha) tools are available free of charge from Taylor Systems Engineering.

TSe+Mat (materials library) is an interface to the materials datasets that come bundled with EnergyPlus and allows users to manage their frequently used material inputs for EnergyPlus data by manipulating new and existing material DataSets from EnergyPlus and exporting them in the required IDF format.

TSe+Glz (glazing library) is the second module of the TSe+ suite. It was an alpha release as of Sept 2003. TSe+Glz allows the user to create, edit and manage window glazing, and gas, shade and blind materials and constructions.

The Deringer Group, Inc.
1250 Addison Street
Berkeley, CA 94702
Ph: (510) 843-9000
Fx: (510) 843-9300

EnergyPlus Online Simulations are online tools embedded in the Deringer Group's EcoAdvisor, a set of training modules on sustainable buildings. These tools can be used by anyone and require no special knowledge of EnergyPlus.

EnergyPlus Interface Support Tools

This set of stand-alone Windows-based tools is intended to make the text-based use of EnergyPlus faster, easier, and more accurate. The tools assume that the user is somewhat familiar with typical text-based interfaces for energy simulations. So far there are two proof-of-concept tools.

DrawEzPlus

is a 3-D rendering tool that reads the geometry data in an EnergyPlus input file and uses a set of OpenGL commands to render the building objects. Two key steps are involved. First, the EnergyPlus input file is parsed and all vertices data is extracted into a temporary file, organized by type of building object. Second, the temporary file is processed by a set of OpenGL utilities that produces renderings of the 3-D data. The current version allows the user to: toggle between orthogonal (parallel lines do not converge) and perspective views, toggle between line and surface (fill) presentation modes, and select to draw any mix of key building objects (floor, walls, roof, windows, and attached and detached shading). DrawEzplus 1.1 will produce renderings in either orthogonal view simulations.

EzPlus-Parm

is a stand-alone Windows tool intended primarily for EnergyPlus parametric analysis. It was designed to simplify the running of multiple parametric EnergyPlus simulations and helps a user organize and edit files.

GeoPraxis, Inc.
205 Keller Street, Suite 202
Petaluma, California 94952
Ph: (707) 766-7010 Voice
Fx: (707) 766-7014 Fax

Green Building Studio

is a web-based service provided by GeoPraxis, Inc. It gives 3-D CAD users quick, reliable, and free estimates of a building's energy costs during the early stages of conceptual design. Green Building Studio is powered by GeoPraxis' IDEA Server building energy simulation management software that incorporates EnergyPlus into this solution. Key to the integrated interoperability exhibited in GBS-compliant 3-D CAD applications is the Green Building XML schema (gbXML), an open XML schema of the International Alliance of Interoperability's aecXML Group. Green Building Studio creates an EnergyPlus IDF file.

Interfaces for EnergyPlus

Vendor	Description	Cost
DesignBuilder Software, Ltd. Palace Chambers 41 London Road Stroud Gloucestershire, GL5 2AJ UK www.designbuilder.co.uk/	DesignBuilder provides a range of environmental performance data such as: annual energy consumption, maximum summertime temperatures and detailed feedback on temperatures and heat flows in the building. DesignBuilder provides an interface to the latest EnergyPlus version for envelope, solar, ventilation and daylighting capabilities as well as heating and cooling load modeling. The software comes with summer and winter design data for 1439 worldwide locations and has access to more than 500 hourly simulation weather files.	See <i>website</i>
EP-QUICK Contact Jason Glazer Glazer Software www.glazersoftware.com	EP-QUICK is an easy-to-use program that creates an EnergyPlus input file for a building, without HVAC, using simple templates for the shape and zone layout. EP-Quick is not a full interface for EnergyPlus but simply a way to generate input files quickly. You may use the main "tree" interface to examine and modify many different details of the building, including: <ul style="list-style-type: none">* Overall Geometry - depth, width* Building - roof, floor, interior constructions* Defaults - default values used in "Floorplans"* Internal Gain Types - lighting, people, schedules* Floorplans - zones, exterior walls, windows, etc* Corners - locations of the building vertices* Roof corners - locations of special roof vertices	
EPlusInterface Contact Santosh Philip	EPlusInterface is an open source initiative to develop a comprehensive interface for EnergyPlus. The code is free for anyone to use. The license is GPL. Modules currently under development are listed below; a few are ready to use. For latest downloads and status check the website . <ul style="list-style-type: none">• EPlusTUI: Text based interface tui = text user interface• EPlusGUI: Graphical interface for Linux, Mac and Windows• API: A set of well documented API that can be used to develop specialized interfaces• CAD Interface: Protocol for building 3-D CAD models for EnergyPlus with conversion routines to generate EnergyPlus files• Material Library: Develop standard libraries for materials, construction, windows, systems, plants etc.• Import/Export: Protocol for transferring (import/export) elements between files.

<p>Visualize-IT RLW Analytics, Inc. 1055 Broadway, Suite G Sonoma, CA 95476 Ph: 800-472-6716 Fx: 707-939-8823</p>	<p>Visualize-IT 2.0 is a Windows application designed to help you explore and summarize short-interval time series data, e.g., measurements taken once every 15 minutes over a period of weeks, months or years. Visualize-IT has been developed specifically for electric and gas load data measuring class profiles, market-segments, individual customer sites or specific end uses. Customized DOE2.1e hourly output importer. Visualize-IT is highly useful and informative for looking at DOE2 output and/or comparing to interval metered data. It is equally useful for other time series measurements such as weather, industrial process control, and water quality. OS: Windows 95, 98 and NT</p>	<p>\$500.00 per set Volume Discounts Available</p>

GeoPraxis, Inc., the industry leader in web-based building energy analysis tools, is looking for web application energy engineers. If you are an individual whose goals include applying your advanced programming knowledge to solve today's energy and resource issues, GeoPraxis is looking for you. We are extending the functionality of our Green Building Studio web service to better serve the architects and engineers using it. This web service provides immediate energy results using DOE-2 from within Autodesk's Architectural Desktop, Revit, and Building Systems applications as well as Graphisoft's ArchiCAD application.

Responsibilities:
 Work with senior engineers to extend the capabilities of our Green Building Studio web service as well as work with and manage our partner developers. Provide assistance with our training and help line.

Requirements (Minimum):
 Degreed engineer (BS or MS) or equivalent. Working knowledge of XML, XSLT, SOAP, C#, .NET, VB, JavaScript, SQL Server, Stored Procedures, MS Office, DOE-2.2, EnergyPlus and good oral and written communication skills.

Position

Available

Requirements (desired):
 Creative, open-minded, eager, excellent oral and written communications, experience in the building energy field, experience in the building design sector, and environmentally aware.

Location:
 Petaluma, CA – north of San Francisco (in the wine country)

Apply:
 Email your resume (or a link to your resume, if available online), in XML (http://ns.hr-xml.org/2_0/HR-XML-2_0/SEP/Resume.pdf preferred), HTML, or MS Word attachment with "Web Application Energy Engineer" in the subject line to: resumes@geopraxis.com

For more information on GeoPraxis you can visit <http://www.geopraxis.com>.

For more information on the Green Building Studio you can visit <http://www.greenbuildingstudio.com>.

Program Name and Vendor	Description	Cost
<p>Building Energy Analyzer InterEnergy Software 1700 South Mount Prospect Road Des Plaines, IL 60018 support@interenergysoftware.com www.interenergysoftware.com</p>	<p>InterEnergy Software, Inc. was established in 1998 by the Gas Research Institute and the Institute of Gas Technology to develop and market software for the energy industry. Building Energy Analyzer - Easy to use software provides quick economic analysis for commercial and industrial building; allows users to compare energy options and to estimate energy loads and costs. BinMaker PRO - Weather data for engineering. DesiCalc - Software for screening desiccant dehumidification/cooling applications; allows users to easily run hour-by-hour simulations to compare the energy needs and costs of using desiccant-based equipment with those of competing electric air-conditioning equipment.</p>	<p>see website for prices</p>
<p>CBIP cbip.nrcan.gc.ca/cbip.htm Natural Resources Canada 580 Booth St., 18th Floor Ottawa ON K1A 0E4, CANADA</p>	<p>Natural Resources Canada's Commercial Building Incentive Program (CBIP) offers a financial incentive for the incorporation of energy efficiency features in new commercial and institutional building designs. The objective of this new incentive is to encourage energy-efficient design practices and to bring about lasting changes in the Canadian building design and construction industry.</p>	<p>Web Based (free)</p>
<p>Cool Tools Pacific Gas & Electric Company pwt1@pge.com www.hvacexchange.com/cooltools/</p>	<p>The CoolTools™ project objective is to develop, disseminate and promote an integrated set of tools for design and operation of chilled water plants. CoolTools products are Internet based, public domain resources available to building owners, design professionals, and operators involved in both new construction and retrofits.</p>	<p>Web Based (free)</p>
<p>Energy Gauge USA (Danny Parker) Florida Solar Energy Center 1679 Clearlake Road Cocoa, FL 32922</p>	<p>Energy Gauge USA allows the simple calculation and rating of residential building energy use in the US. The simulation calculates a six-zone model of the residence (conditioned zone, attic, crawlspace, basement, garage and sunspace) with the various buffered spaces linked to the interior as appropriate. TMY weather data for the program are available for 239 US locations.</p>	<p>Contact Danny Parker at FSEC for availability.</p>
<p>Home Energy Saver (Residential DOE-2) hes.lbl.gov</p>	<p>Calculation of residential energy consumption using DOE-2.1E. In 10-20 seconds, the program performs a full annual simulation for a typical weather year (involving 8760 hourly calculations) from 239 locations around the United States.</p>	<p>Web Based (free)</p>
<p>PERFORM 2001 California Energy Commission 1516-9th St., MS-13 Sacramento, CA 95814 Ph: 916-654-5385</p>	<p>Created for the State of California Energy Commission's, Title 24 energy code. Perform 2001 is an interface shell with DOE-2 as the engine. PERFORM 2001 calculates building energy consumption for space heating, space cooling and domestic hot water heating, and compares the energy consumption of the building design against the requirements of the standards. DOS input. Output is only California Title 24 compliant. [Based on DOE-2.1E] Technical support \$100/year from Gabel-Dodd Energy Soft LLC, Call 415-883-5900 for details.</p>	<p>\$250 including PERFORM 2001 program and manual on CD. (VISA/MC) Order #PS-400-04-017 www.energy.ca.gov/reports/reports_400.html</p>
<p>RESFEN-3.1 Building Technologies, MS 90-3111 Lawrence Berkeley Laboratory Berkeley, CA 94720</p>	<p>RESFEN calculates the energy and cost implications of a building's windows and insulated walls. Also compares the relative energy and cost impacts of two different windows. RESFEN calculates the heating and cooling energy use and associated costs, also the peak heating and cooling demand for specific window products. [Based on DOE-2.1E] OS: Windows 95, 98, NT</p>	<p>Free! Download</p>
<p>TEXAS EMISSIONS REDUCTION CALCULATOR Texas A&M University</p>	<p>The Texas Emissions Reduction Calculator was created to provide Texans with an accurate, easy-to-use tool for calculating the emission reduction credits attributable to a single-family residence.</p>	

INTERNATIONAL DOE-2 RESOURCE CENTERS

The people listed here have agreed to be primary contacts for DOE-2 program users in their respective countries. Each resource center has the latest program documentation, all back issues of the User News, and recent LBNL reports pertaining to DOE-2. Users may make arrangements to photocopy the new material for a nominal cost. We hope to establish centers in other countries; please contact us if you want to establish a center in your area.
